

CONFINED SPACE ENTRY RULES

SAFE ENTRY AND RESCUE REQUIREMENTS

AUTHORIZE • TEST • PREPARE RESCUE

01

VERIFY THE ENTRY PERMIT

- Do not enter without a valid confined space permit.
- Confirm responsibilities and entry conditions.

02

ISOLATE ENERGY

- Isolate mechanical, electrical and process energy.
- Verify all required LOTO controls.

03

TEST THE ATMOSPHERE

- Test oxygen, flammable gases and toxic gases.
- Continue monitoring throughout the entry where required.

04

PROVIDE VENTILATION

- Use suitable fresh-air or mechanical ventilation.
- Never ventilate with oxygen.

05

ATTENDANT AND COMMUNICATION

- Keep the attendant at the entry point.
- Maintain continuous communication with entrants.

06

PREPARE FOR RESCUE

- Verify a workable rescue plan before entry.

DO NOT ENTER

- ✓ The permit is invalid
- ✓ The atmosphere is unsafe
- ✓ No attendant is present
- ✓ Rescue is not ready
