HOUSEKEEPING CRITICAL SAFETY RULES

CLEAN • ORGANIZE • KEEP ACCESS CLEAR • REMOVE HAZARDS

OSHA 1910.22 / 1926.25

OSHA · US industry/construction · Verify local requirements separately

SERNEM · Check Before Starting

Pre-Job Check

- ✓ Clear walkways
- ✓ Emergency equipment access
- ✓ Spill identification
- ✓ Waste segregation
- ✓ Cables and hoses
- ✓ Stack stability
- ✓ Cleaning equipment

01 REQUIRED — Keep the Area Orderly

- ✓ Store materials and equipment in designated locations.
- ✓ Keep unnecessary materials out of access routes.
- ✓ Restore the work area after the task.

02 REQUIRED — Keep Access Routes Clear

- ✓ Keep walkways, doors and emergency exits clear.
- ✓ Route or protect cables and hoses crossing access ways.
- ✓ Never use access routes as storage areas.

03 REQUIRED IF — Clean Spills Immediately

Applies when: A spill exists; act within your training

- ✓ Secure the area; handle spills only within training and with suitable equipment.
- ✓ Mark or barricade the area until it is safe.
- ✓ Use suitable absorbents and disposal methods.

04 REQUIRED — Manage Waste Correctly

- ✓ Place waste in suitable labelled containers.
- ✓ Segregate flammable and hazardous waste.
- ✓ Prevent waste containers from overflowing.

05 REQUIRED — Remove Trip Hazards

- ✓ Do not leave cables, hoses, packaging or parts on the floor.
- ✓ Report damaged floors and level changes.
- ✓ Clearly mark temporary hazards.

06 REQUIRED — Stack Materials Safely

- ✓ Build stable stacks that cannot collapse.
- ✓ Keep heavier materials at lower levels where practicable.
- ✓ Follow stacking-height and capacity requirements.

07 REQUIRED — Keep Emergency Equipment Clear

- ✓ Do not obstruct fire or first-aid equipment.
- ✓ Keep electrical panels and isolation points accessible.
- ✓ Do not store materials around emergency equipment.

08 REQUIRED — Correct Unsafe Conditions

- ✓ Correct housekeeping hazards immediately where possible.
- ✓ If you cannot correct the hazard, protect the area and report it.
- ✓ Prevent recurrence of the same condition.

Stop Work Now

- NEVER BLOCK EMERGENCY EXITS OR ACCESS ROUTES
- NEVER LEAVE A SPILL UNCONTROLLED
- NEVER STORE MATERIALS OR WASTE RANDOMLY
- NEVER OBSTRUCT FIRE OR EMERGENCY EQUIPMENT
- NEVER IGNORE A TRIP HAZARD

Critical Controls

CLEAN — Control spills safely

CLEAR — Keep exits and routes open

ORDER — Stack materials securely

REPORT — Isolate unresolved hazards

Technical Reference · Validation Required
OSHA 1910.22 / 1926.25
Verify source scope and local requirements

Risk-Based PPE Selection

- **Safety Helmet** — Head-impact risk
- **Safety Glasses** — Splash or particle risk
- **Work Gloves** — Task-matched gloves
- **Slip-Resistant Safety Footwear** — Ground and foot hazards
- **High-Visibility Vest** — Traffic and visibility

Select PPE by risk, manufacturer and site procedure; this list is not mandatory for every task.
