SERNEM PRE-JOB CONTROL
CHECK BEFORE STARTING

PRE-JOB CHECK

- ☐ IDENTITY AND LABEL
- ☐ CURRENT SDS
- ☐ CHEMICAL COMPATIBILITY
- ☐ VENTILATION
- ☐ SUITABLE PPE
- ☐ SPILL READINESS
- ☐ SHOWER AND EYEWASH

01 MANDATORY
CHECK THE LABEL

- Read the label before using a chemical.
- Do not use unidentified containers.
- Label secondary containers appropriately.

02 MANDATORY
REVIEW THE SDS

- Review hazards and first-aid information.
- Confirm required PPE and storage conditions.
- Ensure emergency information is accessible.

03 MANDATORY
SEGREGATE INCOMPATIBLES

- Separate acids, bases, oxidizers and flammables by compatibility.
- Store chemicals in suitable cabinets or areas.
- Do not store incompatible chemicals together.

04 MANDATORY
CONTROL EXPOSURE

- Use engineering controls such as enclosure and ventilation first.
- Select PPE based on the risk assessment.
- Do not exceed applicable exposure limits.

05 MANDATORY
PREPARE FOR SPILLS

- Provide a suitable spill kit and absorbents.
- Isolate the area following a spill.
- Do not respond to chemical spills beyond your training.

06 MANDATORY
TRANSFER SAFELY

- Use suitable pumps and transfer equipment.
- Control splash and static-electricity hazards.
- Do not perform uncontrolled open-container transfer.

07 MANDATORY
MAINTAIN HYGIENE

- Do not eat or drink in chemical work areas.
- Wash hands after removing gloves.
- Remove contaminated PPE in a controlled manner.

08 MANDATORY
RESPOND CORRECTLY

- Follow SDS instructions after eye or skin contact.
- Keep required emergency shower/eyewash equipment accessible.
- Report exposure immediately.

CRITICAL STOP CRITERIA
STOP WORK NOW

STOP

- ✖ NEVER USE AN UNLABELLED CHEMICAL
- ✖ NEVER START WITHOUT SDS INFORMATION
- ✖ NEVER STORE INCOMPATIBLE CHEMICALS TOGETHER
- ✖ NEVER RESPOND UNPROTECTED TO AN UNKNOWN SPILL
- ✖ NEVER IGNORE A CHEMICAL EXPOSURE
