

HSE TOOLBOX TALK

HAZARDOUS WASTE HANDLING TOOLBOX TALK

PURPOSE AND SCOPE

Prevent incompatible mixing, poor storage and worker exposure during hazardous waste handling.

KEY HAZARDS

1  Incompatible waste mixing.	2  Chemical contact.	3  Flammable waste.	4  Contaminated sharps.
5  Unlabelled containers.	6  Open waste containers.	7  Spills.	8  Incorrect disposal.

CRITICAL POINTS TO VERIFY IN THE FIELD

01 Incompatible waste mixing.	02 Chemical contact.	03 Flammable waste.
---	--------------------------------	-------------------------------

REMEMBER — SERNEM

S

Stop and think

E

Evaluate the risk

R

Remove or reduce

N

Never assume

E

Ensure protection

M

Monitor and communicate

FIELD REQUIREMENTS AND VERIFICATION

Prevent incompatible mixing, poor storage and worker exposure during hazardous waste handling.

SERNEM FIELD 01

FIELD VERIFICATION 1

Waste class identified

SERNEM FIELD 02

FIELD VERIFICATION 2

Container suitable

SERNEM FIELD 03

FIELD VERIFICATION 3

Label present

SERNEM FIELD 04

FIELD VERIFICATION 4

Compatibility checked

VERIFICATION BEFORE START

- | | |
|---|--|
| ☐ Waste class identified | ☐ Container suitable |
| ☐ Label present | ☐ Compatibility checked |
| ☐ Container closed | ☐ Secondary containment present |

SUPERVISOR DISCUSSION POINTS

- What waste class is this?
- What container is required?
- Is it labelled?

FIELD APPLICATION

A material does not stop being hazardous simply because it has become waste.

HAZARDOUS WASTE HANDLING TOOLBOX TALK

CRITICAL CONTROL MEASURES

1. ELIMINATE / REDUCE THE RISK

Segregate waste by type. • Keep containers closed. • Inspect temporary storage areas.
2. ENGINEERING & PHYSICAL CONTROLS

Use approved containers. • Provide secondary containment. • Maintain waste transfer records.
3. WORK METHOD & FIELD CONTROLS

Label all containers. • Wear suitable PPE.
4. PPE, VERIFICATION & SUPERVISION

Separate incompatible wastes. • Use puncture-resistant containers for sharps.

CRITICAL WARNING

!

Team, hazardous waste still carries the original hazard. We will segregate each waste stream correctly, keep containers closed and labelled, and never mix incompatible wastes.

SITE CHECKLIST — BEFORE STARTING WORK

- ☐ Waste class identified

☐ Label present

☐ Container closed

☐ PPE suitable

☐ Transfer method clear
- ☐ Container suitable

☐ Compatibility checked

☐ Secondary containment present

☐ Storage area orderly

☐ Crew briefed
